

SPEEDLINE TRUCK at the IAA TRANSPORTATION 2024

Presezzo/Italy, 20.08.2024 - SPEEDLINE TRUCK will once again have its own stand at this year's IAA TRANSPORTATION in Hanover from September 17 to 22, 2024. The trade fair is the leading international platform for commercial vehicles, buses, logistics and the transportation sector.

SPEEDLINE TRUCK will be presenting its extensive range of aluminum wheels in dimensions from 17.5" to 22.5" for tractors, coaches, city buses and trailers in Hall 24, Stand D50. The wide range of user-oriented accessories will also be on display. In addition to valves and stem nuts, this also includes various cleaning products for forged wheels.

As part of the RONAL GROUP, SPEEDLINE TRUCK will also be exhibiting several wheels from the RONAL Aftermarket segment, which are suitable for caravans and motorhomes, among others. The RONAL GROUP is the only group with an integrated product range for passenger cars, light and heavy trailers and commercial vehicles.

All SPEEDLINE TRUCK wheels are equipped with the original SPEEDLINE TRUCK valves with special corrosion protection. In addition, the complete forged wheel program is available for the trade with German ABE and TÜV tested.

The SPEEDLINE TRUCK stand at the IAA TRANSPORTATION is located in Hall 24, Stand D50.

About SPEEDLINE TRUCK

SPEEDLINE TRUCK is the truck wheel brand of the Swiss RONAL GROUP and is one of the leading suppliers of forged alloy wheels for commercial vehicles, trailers and coaches, both as original equipment and for specialist dealers. The heavy-duty design alloy wheels from SPEEDLINE TRUCK impress with their enormous strength and very low weight. All wheels offer the highest load capacities on the market and are T Ü V - a p p r o v e d .
